

Fairview Food Market Wild Game Processing

Fairview Food Market, 1508 N Abbe Rd, Fairview, MI 48621

989-848-2820 www.fairviewfoodmarket.com

Prices Subject to Change

In order to ensure that you receive the same meat that you have brought in we have a minimum batch requirement of 16. 5lbs of wild game meat per variety of custom meat processed. We add 1 part trimmed pork to 2 parts wild game, so if you bring us 16. 5lbs wild game we will add 8.5lbs pork to make a 25 pound batch. This batch will typically yield around 20-22lbs of finished product. All of our prices are based on finished weight of product, except Jerky which is charged by incoming weight.

How to prepare your game meat for processing:

We **ONLY** process game meat that has been **boned out** with excess fat trimmed off, **washed**, and **free of dirt, blood clots, and hair**. It will be processed in the same condition as it is dropped off. We also only accept wild game that has been brought to us in food grade containers. These containers include covered plastic bowls, clean pots, coolers, buckets, gallon sized bags ect. **We will not** accept wild game that is packaged in **trash bags** or **plastic carry out bags**. If you choose to bring in frozen wild game, the frozen blocks must weigh less than 10lbs each.
